

*Together we learn about the experience of grief and loss,
and find comfort as we journey through grief.*

St. Joan of Arc in conjunction with Reverence Hospice, a service of St. John Health System, is offering a six-week series about the experience of grief and loss.

The purpose of this six-week series is to provide support and an understanding of what we may experience as we grieve the death of a loved one.

The content of each week's sessions builds upon the previous week, so participants benefit most by attending all sessions.

"Healing the Heart" is offered as a community service, and there is no charge. These groups are open to any adult who has lost a loved one due to death.
